Dear Colonel Edwards:

Effective March 3, 1958, security surveys by AEC personnel of the premises of your Agency, including those of contractors, sub-contractors and consultants you may engage to perform work involving Restricted Data or other AEC classified information, will be discontinued. It is expected that the physical protection afforded such data be in accordance with the standards of Executive Order 10501.

Pursuant to Section 13 of Executive Order 10501, such AEC regulations as are applicable will continue in effect. To assist you in the discharge of your responsibilities in this connection, we have enclosed copies of AEC security issuances including the pamphlet, "Security Responsibilities of Non-AEC Employees."

Inasmuch as the Atomic Energy Commission has the principal responsibility for the control and dissemination of Restricted Data, we would appreciate receiving your confirmation that such information, within the control of your Agency, shall be safeguarded in accordance with the standards of Executive Order 10501.

Please contact this office if further information is desired.
